

ORION Open Science Researcher Training Workshop

Date and Time:

March 21st
09:30 – 16: 30

Location:

Annexes 1 & 2, BDD building
11-13 Rue Pierre et Marie Curie

Places available:

20 max

Title:

Open Science and Research

Summary:

Open Science concepts and tools have the potential to transform the current scientific system for the greater good of all, but what does it mean for you? How can you and your work benefit from the Open Science movement?

In this highly interactive workshop, we will explore Open Science principles and how they relate to your day-to-day scientific practice. You'll walk out with a strong personal understanding of what Open Science is and with a set of actionable steps and resources for its implementation. After the workshop you'll know how to fully harness the potential of incorporating Open Science into your professional life.
